Inspired by travels around the globe
Inspired by their travels around the globe, Theo Eichholtz and his team are known for translating the specific charm of the places they visit into appealing interior schemes and alluring ambiences. Together with his designers, Theo creates furniture collections that capture the classic chic of French residences, the rustic romance of Canadian mountain houses, the refined oriental splendour of ancient Asian palaces and the sumptuous glamour of Hollywood mansions. The Eichholtz collection offers you a variety of styles with influences from all corners of the world.

Crafted by skilled artisans
The majority of our furniture pieces, lighting and accessories are designed in-house. What we design in the Netherlands is manufactured in Asia and Eastern Europe, partly by factory production and partly by hand. Many of our accessories and accent pieces are crafted by skilled artisans, such as glassblowers and blacksmiths.

Detailed floor plan
To be able to design the furniture layout, wiring systems, lighting schemes and so on, we create a detailed floor plan for your project. By generating a nice flow between rooms, hallways et cetera, a good floor plan increases the enjoyment of the total space.

Colour scheme and wall finishings
Walls form the foundation of any interior scheme and impart a finished look. They can also dramatically transform a space, lending sleek sophistication or historical reference. Therefore we pay special attention to the colour scheme and wall finishings: from stunning fabric coverings and classic wood paneling to fine plaster siding and high quality paintwork.

3D visuals of the desired result
Our styling team and 3D designers are more than willing to transform your interior design projects into 3D visuals to give a realistic 360° preview of the desired result.

Even better than the real thing

Neon lights have always been popular in interior designs, since they infuse extravagance into the space. These vintage style texts add a halo of light and charm to any interior space. They have the look and feel of traditional neon signs. Yet they are a lot more environmentally friendly, since they are made of energy-efficient LED acrylic.
Intriguing trio

The heavenly blue Fly vases and bowl are decorative accents for any table, mantel or shelf. What unites them are geometric planes and a matte finish. Yet there are not two items exactly alike. Since they are hand blown by skilled artisans, each piece is totally unique.
